Know Your Numbers / Health Tracker Card

- Work on Cards

Basic versions of both the event and wallet KYN cards have been created. What else should be on the cards?

Obesity would like BMI
Diabetes would like H1C

- 1) Long term card for taking home – has limited space so all extra text should be minimal
- 2) Health Event Card – should be educational tool and can include more text and places for notes, etc.

- Event card should be color coded in a “red, yellow, green” fashion to indicate levels of risk.
- Janice will work on the cards and send out for comments
